Royal & Langnickel® Engraving Art™ makes it easy to begin scraperboard artwork! Simply use the tool in the kit to scrape away the preprinted design, revealing the foil below. In no time patterns come to life with realistic depth, dimension and textures. The artwork design is preprinted onto the art board using a light color to help guide the artist when scraping. This format offers projects that can be easily tackled in a short time frame. Engraving Art™ is ideal for anyone interested in the art of scraperboard.

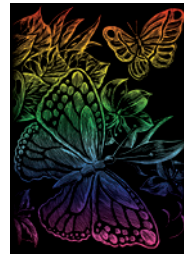

Our packages are trilingual with English, French and Spanish translations. Silver foil, Gold foil, Copper foil and Glow-in-the-Dark are solid values shown when the design is scraped away. Rainbow and Holographic give an added luminosity with multiple colors revealed when scraped. Any artist wanting to experiment and learn a new technique will love our engraving activities!
