SCHOLASTIC BRUSHES

SOFT GRIP™ BRUSH SETS

acrylic | watercolor | oil

Soft-Grip™ brushes are the perfect choice for middle and high school artists because they have standard length acrylic handles with rubber grippers. There are also easel length long handles available. Gold Taklon hair is the most popular and versatile line, but other hair types are also available including Soft Synthetic, White Nylon, bristle, and blends. All assortments come with Brush Care & Storage Trays.

CLASSROOM ★★★★★

These premier brushes are perfect for the classroom. The Majestic™ brushes come with acrylic handles and dyed synthetic taklon bristles, ideal for watercolor, acrylics, ceramic colors and any other water-based colors. The Snowwhite™ have long wooden handles and white taklon hair giving the needed strength for higher viscosity acrylics and oils. The Regis™ line also has long wooden handles and natural hog bristle perfect for high-viscosity products. Sunburst™ brushes have wooden handles and golden taklon hair, great with water-based products.

Hi, We are Mr. Brush™ and Ms. Paint™

Our family is excited to take you on a tour of our most popular products in the education market. We have lots of options and have developed products for all levels at a variety of price points.

Basic Brush Care

- Encourage students to dampen the brush BEFORE they start painting. When you load a dry brush with wet color, the color almost instantly begins to dry in the center of the bristles down near the ferrule. By dampening the bristles, the colors are less likely to dry in the center. Do not just dip the brush into the water and then go into the color. You need to work the moisture into the hair of the brush. Work the brush in the palm of your hand, forcing the moisture into the bristles. Pat the brush on a towel to remove excess moisture before dipping into color. Use appropriate medium with oil colors in place of water.
- After washing the brush in the bowl, check to see if any color remains in the hair by brushing across a paper towel. If color appears on the towel, you still have washing to do.
- When you are done using the brushes, take them to the sink and wash them thoroughly. Use a mild soap and gently massage the bristles with your fingers and work the bristles in the palm of your hand. It is hair so do not use harmful products or treat the bristles any differently than you would treat your own hair.
- Never place brushes loaded with color aside and allow the color to dry in hair. It is best to wash the brushes immediately when done using them, even if the brush is only going to be inactive for a few minutes.
- When storing natural haired brushes for the summer or long periods, dip the brushes in shampoo, wipe the excess, reshape the head, and allow the brush to dry. This will seal the hairs and eliminate possibility of mites getting to the hairs.
- Do not place the brushes in water for extended periods.
- Be gentle when using cake paints. Coarse scrubbing can permanently damage the hairs and force paint into the ferrule.
- Do not bang the brush head against the bottom of the water bowl. Gently swish the brush back and forth in the bowl and allow it to brush against the sides or bottom. Brush basins with rounded, textured bottoms are perfect for aiding the process.
- Occasionally use brush conditioner to keep the hairs from drying out and breaking.
